

„Traffic Telematics“

by

Michael Sandrock, TelematicsPRO e.V., Berlin

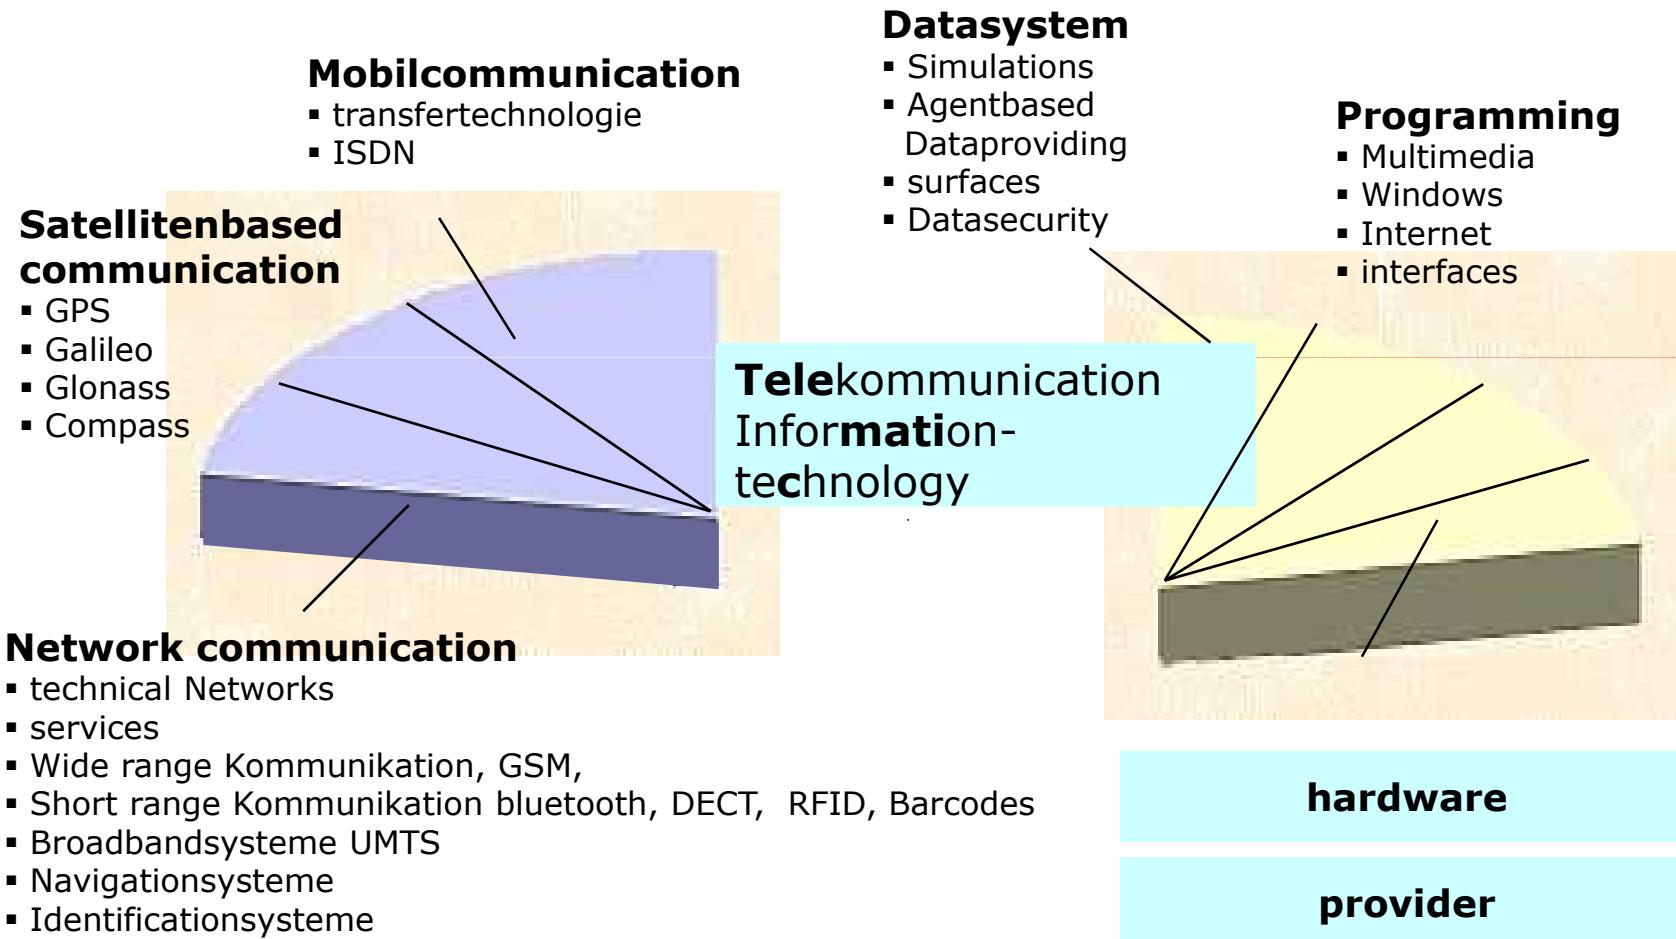

- What is TelematicsPRO
- Telematic for traffic applications
- The enforcement and regulations by the EU
- Platforms for precompetitive marketing

TelematicsPRO e.V.

- Member structure:
68 organisations from Deutschland, Österreich, Belgien, Italien, Niederlande
- Referencing projects:
 - I. Plattform Mobil Parken in operation
 - II. Plattform Mobility payment in planning
 - III. Roadshow, best practise Telematik in cities in operation
- working groups
car2city (city congestion); Electromobility; Metropolitan Navigation; ITS
- Conferences
connected; cockpit; its-forum, payment, tolling, traffic management, logistics
- Institutional cooperations:
Deutscher Städte und Gemeindebund; Bitkom e.V.; ITS Intelligent Transportation Systems e.V. , SmartHome Deutschland e.V.

The technology of telematics

**The span of applications in traffic telematics
From parking and information to navigation**

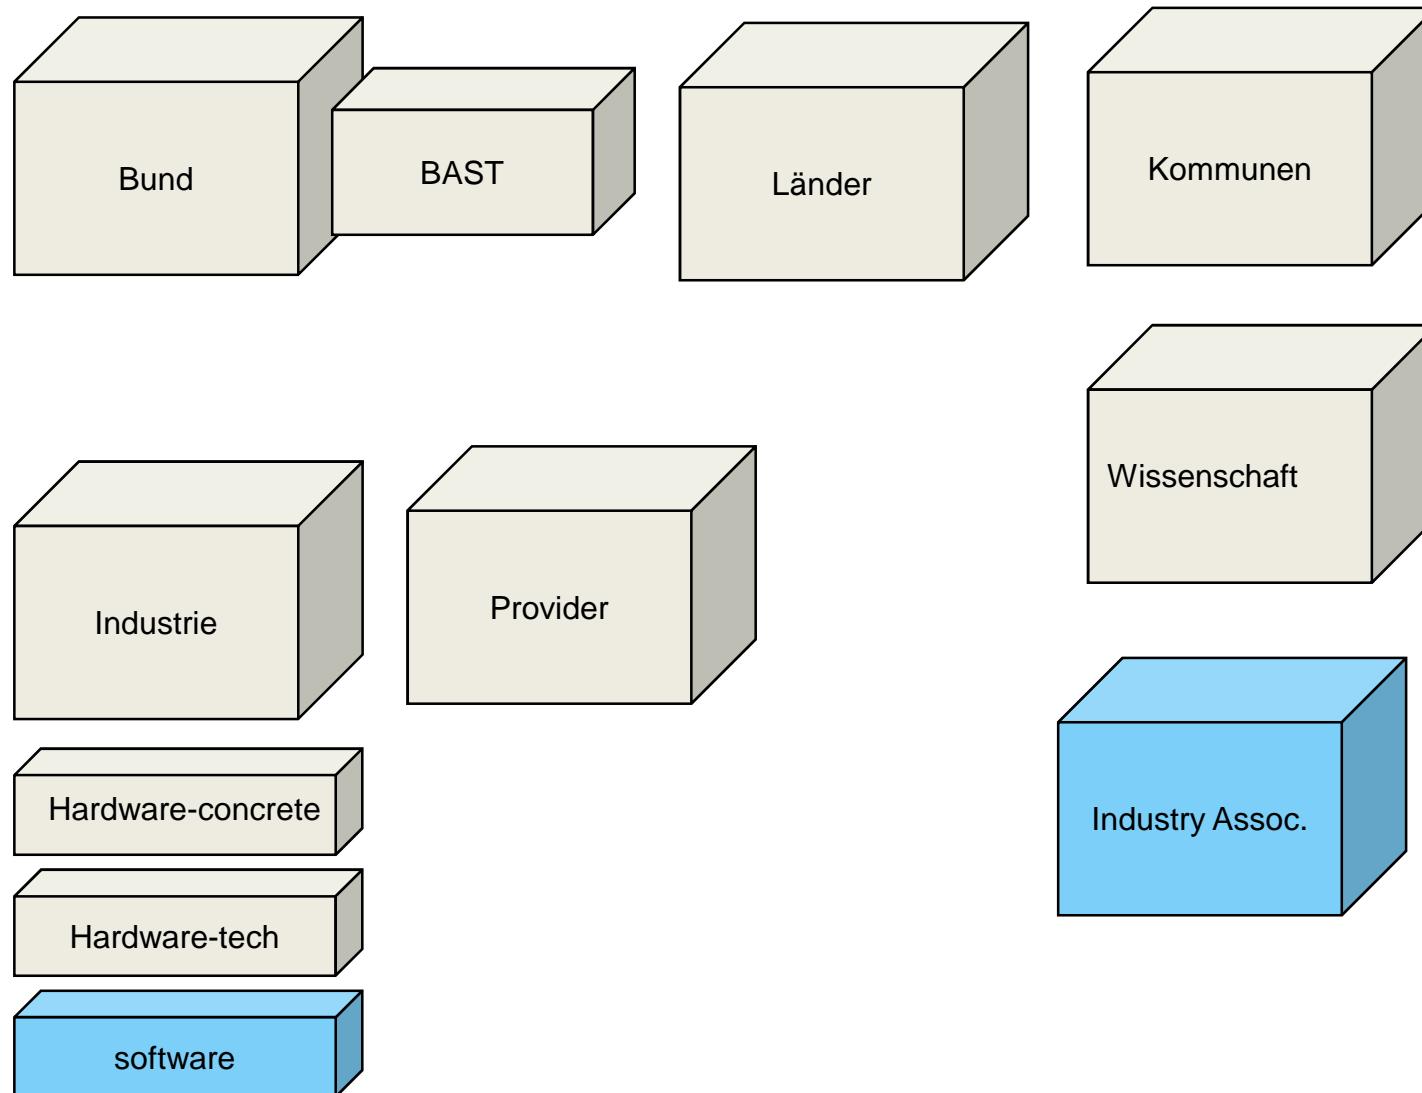

The automotive side of telematics

- Wireless communication
- Embedded m2m
- Car park and connecting cars
- Ca2gether – multimedia mobility solutions
- Control options and information for the ecar
- Infotainment solutions in cars/trucks
- IT in cars

Stakeholders in the traffic „market“

Conferences

Gate to professional ingroups
In automotive industry like

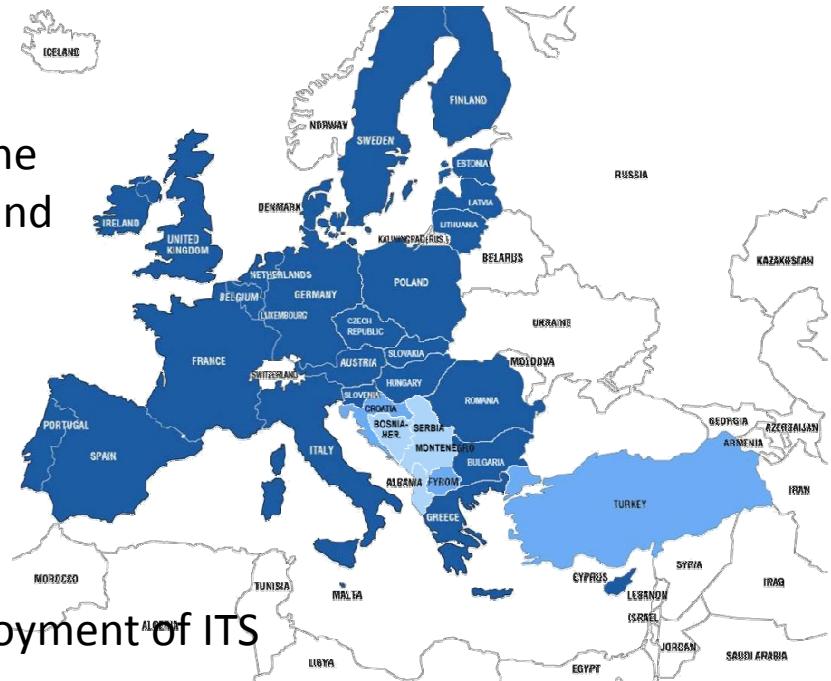

- Connected
 - Cockpit
 - I t s forum
- Mobility payment
 - tolling

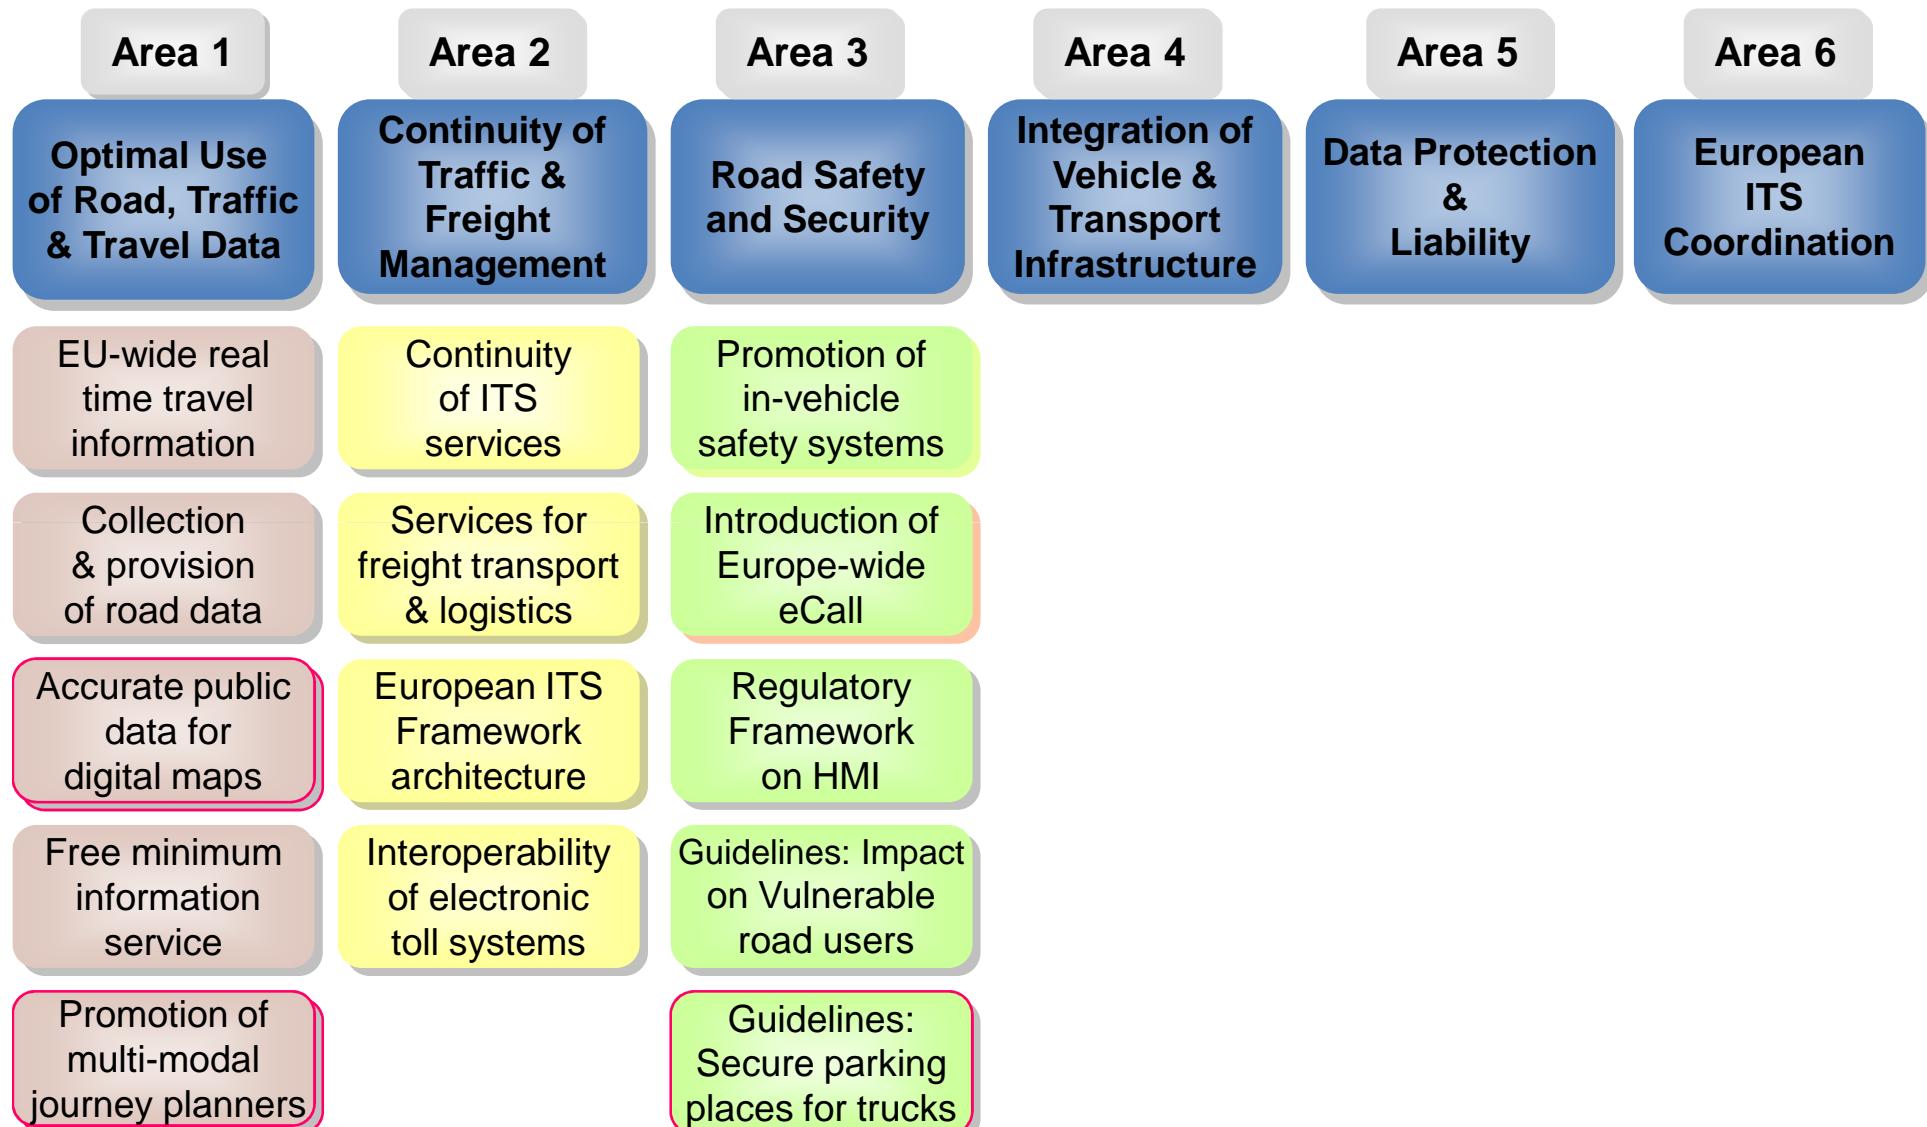

ITS political structure and frames for telematics

- **Action Plan** for the Deployment of Intelligent Transport Systems (ITS) in Europe (Dec 2008)
- **Directive 2010/40/EU:** Framework for the coordinated and Effective Deployment and Use of Intelligent Transport Systems

Road transport and interfaces with other modes

- to coordinate and accelerate deployment of ITS
- to tackle bottlenecks for deployment
- to make road transport more sustainable

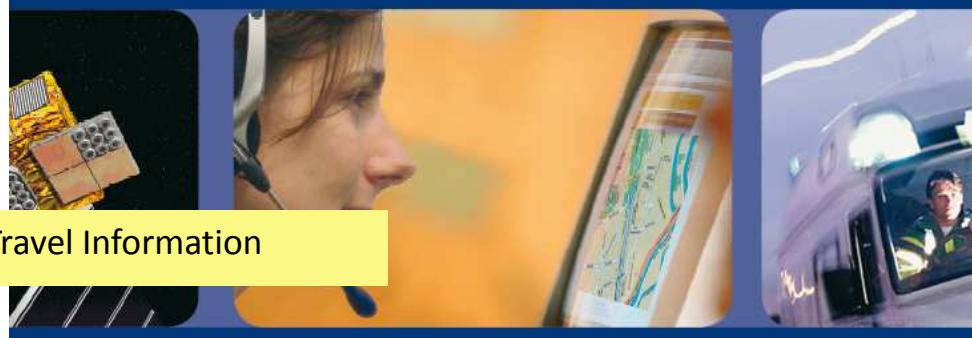

EU-wide Real-Time Traffic information

**Free safety-related minimum
Traffic Info**

Interoperable EU-wide eCall

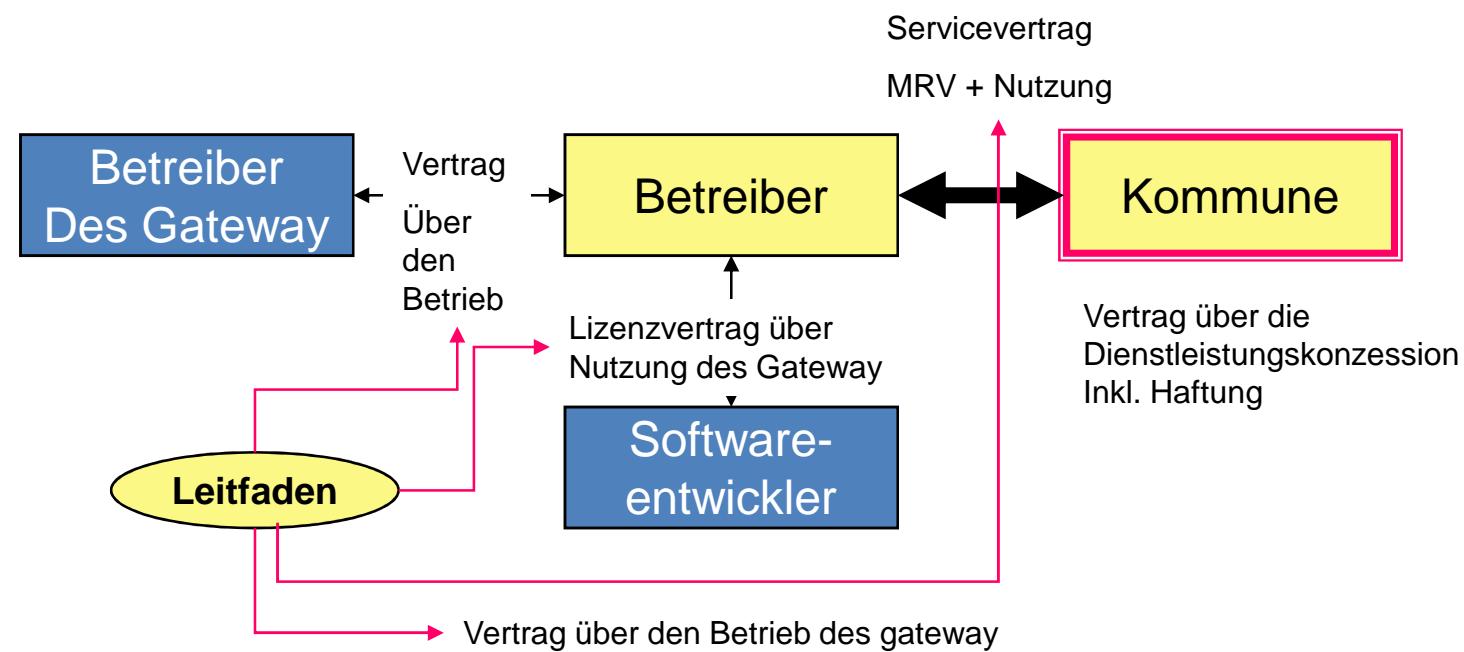

EU-wide Multi-Modal Travel Information

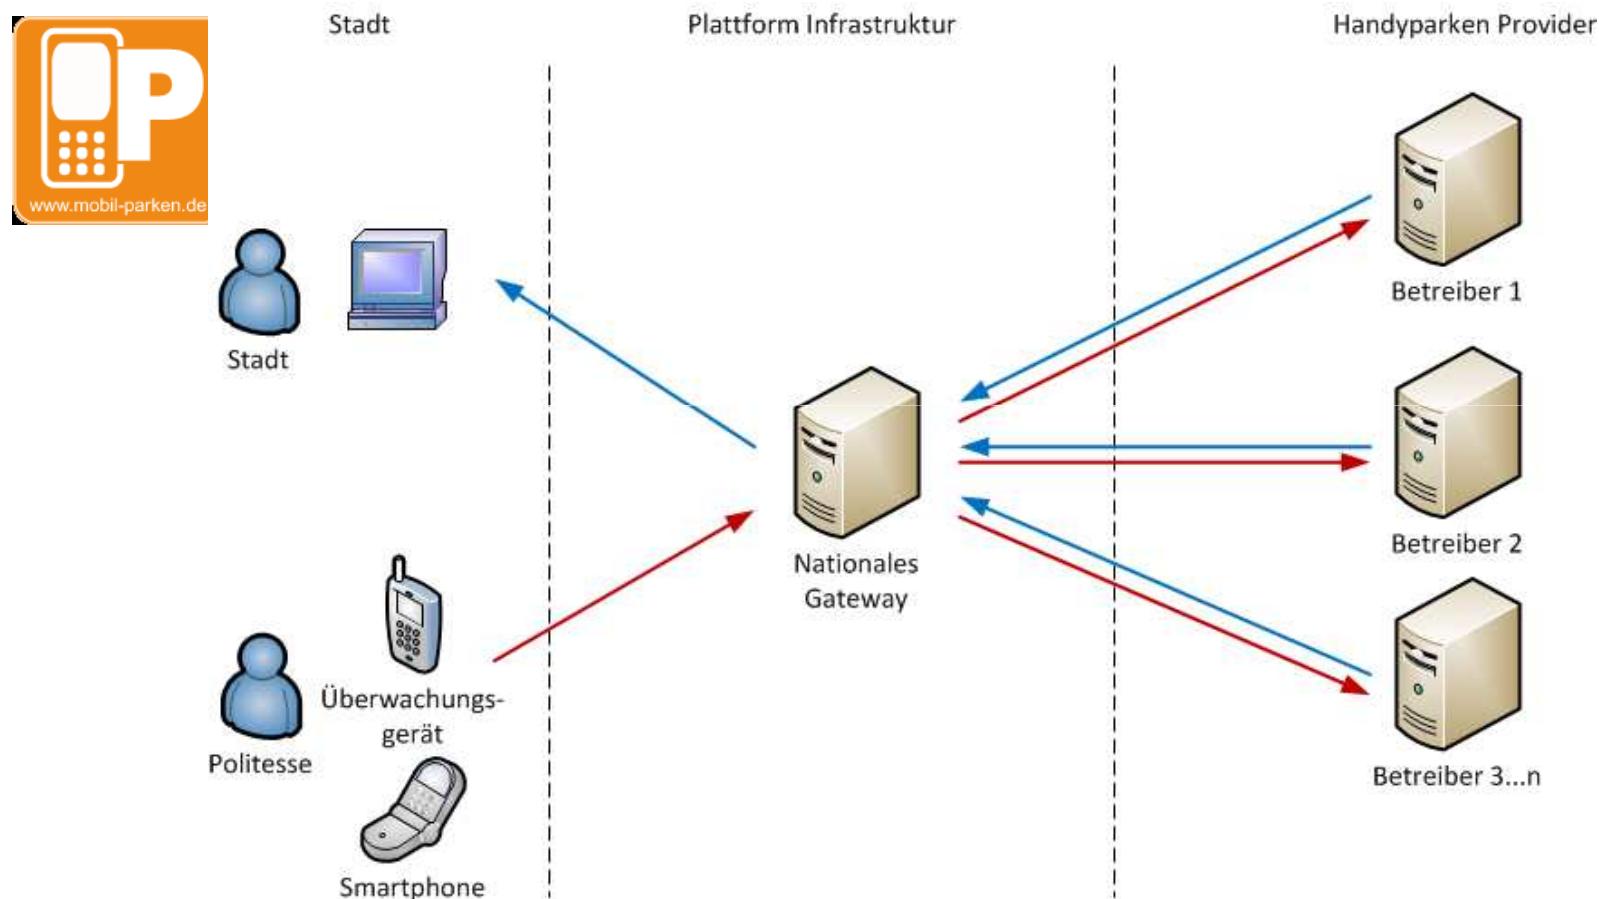

Cellphone parking Platform Administration

Cellphone parking – technology

Mobility in regions:

Mobility requirement: going from A to B
objective =
recommmodation instead of information

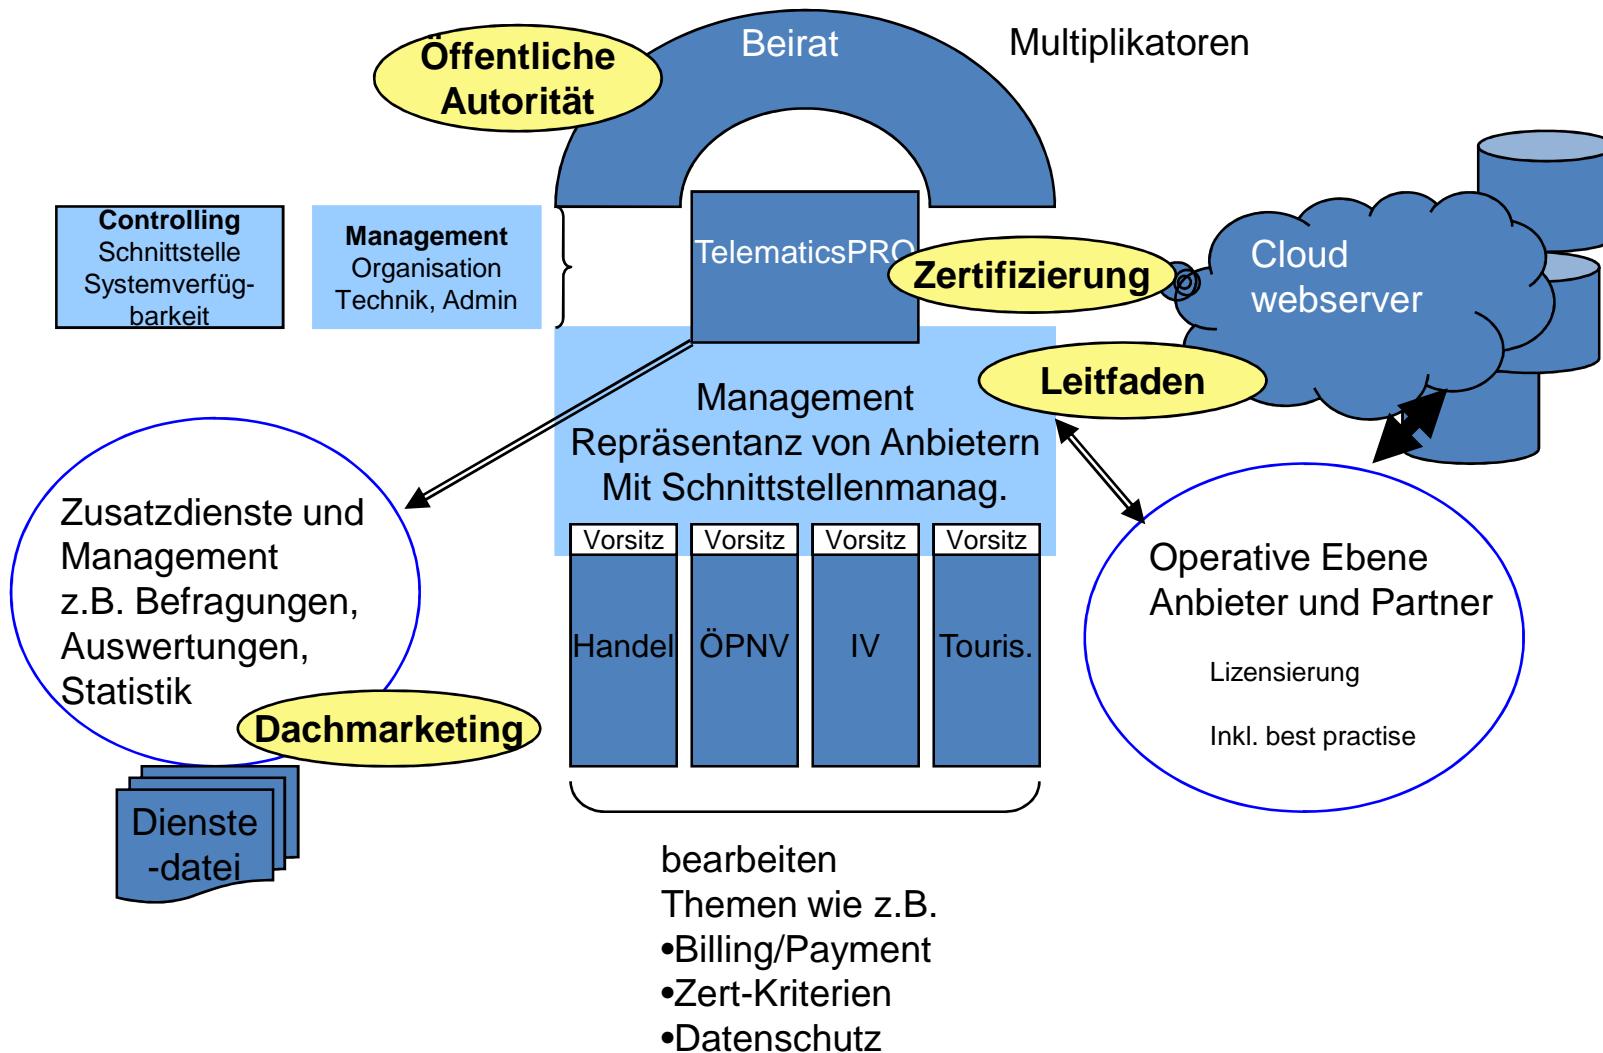

incoming in the Region

Mobility in the Region

Mobilitätsplatform: Management – Administration

Thanks for your attention
